AMEND Senate Bill No. 533***House Bill No. 1892**

by deleting all language after the enacting clause and by substituting instead the following:

SECTION 1. Tennessee Code Annotated, Section 63-13-303, is amended by deleting such section in its entirety and by substituting instead the following:

(a) The practice of physical therapy shall be under the written or oral referral of a licensed doctor of medicine, chiropractic, dentistry, podiatry or osteopathy, except for the following:

(1) A licensed physical therapist may conduct an initial evaluation of a patient without referral.

(2) A licensed physical therapist may provide physical assessments or instructions, including a recommendation of exercise to an asymptomatic person, without the referral of a referring practitioner.

(3) In emergency circumstances, including minor emergencies, a licensed physical therapist may provide assistance to a person to the best of a therapist's ability without the referral of a referring practitioner. The physical therapist shall refer such person to the appropriate health care practitioner, as indicated, immediately after providing assistance. For the purposes of this subdivision:

(A) "Emergency circumstances" means instances where emergency medical care is required; and

(B) "Emergency medical care" means bona fide emergency services provided after the sudden onset of a medical condition manifesting itself by acute symptoms of sufficient severity, including severe pain, such that the absence of immediate medical attention could reasonably be expected to result in:

- (i) Placing the patient's health in serious jeopardy;
- (ii) Serious impairment to bodily functions; or
- (iii) Serious dysfunction of any bodily organ or part.

(4) A licensed physical therapist may treat a patient without referral, when all of the following apply:

(A) The physical therapist shall, upon the consent of the patient, inform the patient's physician, doctor of chiropractic, dentist, podiatrist, or osteopath not later than five (5) business days after the evaluation. If the patient presents to the physical therapist for a problem for which the patient has been seen by a licensed doctor of medicine, chiropractic, dentistry, podiatry or osteopathy within the past twelve (12) months, the consent of the patient is not necessary to inform that licensed doctor of medicine, chiropractic, dentistry, podiatry or osteopathy of the presentation for physical therapy treatment. If the patient has no licensed doctor of medicine, chiropractic, dentistry, podiatry or osteopathy, then the physical therapist shall make a suggestion from list of available providers and shall inform the patient of the forty-five (45) day limitation in subdivision (C) below;

(B) If the physical therapist determines, based on reasonable evidence, that no substantial progress has been made with respect to that patient within fifteen (15) calendar days or six (6) visits, whichever occurs first, immediately following the date of the patient's initial visit with the physical therapist, the physical therapist shall not provide any additional physical therapy services and shall refer the patient to a licensed physician, doctor of chiropractic, dentist, podiatrist, or osteopath. If the patient previously was diagnosed with chronic, neuromuscular, or developmental conditions by a physician, doctor of chiropractic,

dentist, podiatrist or osteopath and the evaluation, treatment, or services are being provided for problems or symptoms associated with one (1) or more of those previously diagnosed conditions, then the provisions of this subdivision (B) do not apply. If a patient returns to the physical therapist within ninety (90) days of treatment with the same complaint, then the physical therapist shall make an immediate referral to the appropriate health care provider;

(C) When a patient's licensed doctor of medicine, chiropractic, dentistry, podiatry or osteopathy has not been notified of the physical therapy services, under no circumstances should therapy services continue beyond forty-five (45) days immediately following the date of the patient's first visit.

(D)(1) It shall be considered unprofessional conduct for the purposes of Section 63-13-209 for a physical therapist to knowingly initiate services for the same complaint for which a patient:

(i) Has reached the fifteen (15) day and six (6) visit limit imposed by subdivision (B) of this subsection where no substantial progress has been made from another physical therapist; or

(ii) Where the patient has reached the forty-five (45) day limit imposed by subdivision (C).

(2) The provisions of this subdivision do not apply if a referral from a licensed doctor of medicine, chiropractic, dentistry, podiatry or osteopathy is made;

(E) If, at any time, the physical therapist has reason to believe that the patient has symptoms or conditions that require treatment or services beyond the scope of practice of a physical

therapist, the physical therapist shall refer the patient to a licensed health care practitioner acting within the practitioner's scope of practice.

(b) No person shall practice physical therapy other than upon the referral of a patient by a person who is licensed in this or another state to practice medicine, chiropractic, dentistry, osteopathic medicine, or podiatric medicine, within the scope of such practices, and whose license is in good standing and who holds a Level C CPR certificate, or its equivalent, unless one of the following conditions is met:

(1) The person holds a master's or doctorate degree from a professional physical therapy program that is accredited by a national accreditation agency recognized by the United States department of education and by the board of occupational and physical therapy examiners and the person has completed at least one (1) year of experience as a licensed physical therapist;

(2) The person has successfully completed a residency or clinical fellowship in physical therapy at a program approved by the board; or

(3)

(A) The person has completed at least three (3) years of experience as a licensed physical therapist; and

(B) The person had completed a course approved by the board of occupational and physical therapy examiners of at least eighteen (18) hours, designed to enable the physical therapist to identify signs and symptoms of systemic disease, particularly those that can mimic cardiological, neurological, oncological, or musculoskeletal disorders, and to recognize conditions that require timely referral to a physician, dentist, osteopath, podiatrist or chiropractor.

SECTION 2. This act shall take effect July 1, 2006, the public welfare requiring it.
